# 8TH GRADE Language Arts

The 8th grade language arts classes had fun writing with goose quill feather pens. After some practice, they were able to incorporate their study of the U.S. Constitution by writing “We the People.” This interesting and fun piece of writing will be placed in their portfolios.

# SPOTLIGHT ON Avery Roberts

Our very own **8th** grader **Avery Roberts** is doing amazing things in the world of music. As a talented flautist (flute player), she competed in the Raleigh Area Flute Association (RAFA) and won a prestigious spot in the RAFA Student Showcase Recital on **November 7th,** where she will perform at **2:45.**

## Way to go Avery!

# FUTURE CEOs STEP INTO THE TANK

## AP BUSINESS CLASS LAUNCHES STUDENT STARTUPS

The high school Shoffner room transformed into a high-stakes venture capital room as the AP Business class hosted its first ever "Shark Tank" day. Rather than presenting theoretical concepts or imaginary products, these ambitious student entrepreneurs pitched real, fully operational businesses that they will be founding and running throughout the upcoming school year.

To make the stakes even higher, students brought physical prototypes and samples for the panel of judges to inspect, taste, and test. The energy in the room was electric as the presenters fielded tough questions about market research, profit margins, cost of goods sold, and scalable growth strategies.

The high-stakes event was made possible thanks to an esteemed panel of local leaders and professionals who served as the day's "BCA Sharks." Special thanks go to **Tiffany Cardwell, Stephanie Wright, Caroline Camons, Mary Thomas Gilbert, Darnell Gray, Kelson Thorn, and Jonathan Jenkins** for volunteering their time, providing invaluable real-world feedback, and scoring the final pitches. Their constructive insight gave these young founders a rare look into what it truly takes to secure investment and build a sustainable brand.

With pitch day complete and seed strategies refined, these high school entrepreneurs are ready to take their products to market. The entire school community looks forward to supporting their entrepreneurial ventures and watching them turn classroom theory into successful business enterprises over the course of the school year.

*Congratulations to all the presenters—* **GO ROYALS!**
