

BCA Middle School

We are the HUB.

At Burlington Christian Academy's Middle School, we are privileged to educate students during some very important transitional years. As they leave elementary school, our students are preparing for and looking forward to the high school years that will shape their futures. That is why our middle school is known as the HUB of the school.

H

We are here to **HELP** students achieve academic excellence by preparing them for the rigors of high school life and by helping them make decisions that honor Christ. Whether it's taking Spanish I or Algebra I for high school credit; learning to think critically about social media; or participating on one of our many sports teams, we are here to **HELP** our students by teaching and discipling them in the 21st century from a biblical worldview.

U

We see the importance of teaching our pre-teens and young teens how to be a vital part of the community of Christ. Therefore, we want to **UNITE** them as the body of Christ through building purposefully supportive relationships. Trips, chapels, clubs, sports, and fine arts, along with a dedicated staff that sees and works with the whole child facilitate strong relationships to **UNITE** our middle school students.

B

We want to **BUILD** each student's relationship with Jesus Christ so they will know years into the future that God loves them and wants to use their lives for His glory. We hope to **BUILD** a biblical worldview and critical thinking in each middle school student so they can one day graduate from BCA and say, "I know God, and I know I have a purpose and plan for my life. Therefore, I will become all that God intends me to become."

WE ARE...

HELPING, UNITING AND BUILDING STUDENTS FOR THE GLORY OF GOD.
